Meeting Minutes

1. Announcements and Key Items

Data: 130, Zgrve and MD04 reports are being added to shared folder along with the recordings for the interviews

Access: The laptops have been setup for UofSC, Rhea will send address to Ken. Ken and Jeno are still working on Jeno's access to Impacts.

2. UofSC Update

UofSC team is finishing up with Task 1: Data exploration and is working on their set of slides for the deliverable. They are continuing reviewing items base

3. Fraunhofer Update

The Fraunhofer team is evaluating expert-system framework solutions for the recommendation engine. This week they will be documenting the information obtained from the interviews and proceeding with the ER mapping process

4. Additional Items

The team spent time discussing the data already received (reports and interviews) and where we need to be. Key things to keep in mind include: the need for consistency in the data and planning. The team will need to look at what areas the data is changing that shouldn't be and also to identify best practices/lessons learned for planning.
